

# MEGAPEX®

**OMEGAPEX®** is an exclusive and standardized formulation designed to deliver a complete spectrum of plant-based Omega fatty acids derived from Sea Buckthorn. By combining both fruit oil and seed oil, **OMEGAPEX®** ensures the presence of Omega 3, 6, 7, and 9 in optimal balance—something rarely found within a single natural source.

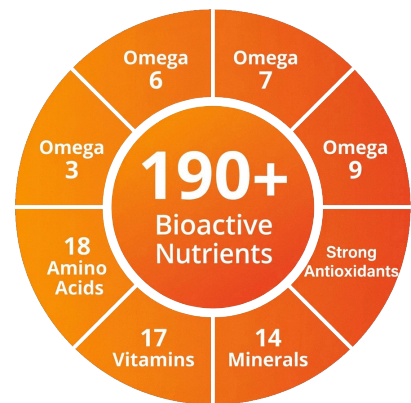

Produced using advanced supercritical CO<sub>2</sub> extraction technology, **OMEGAPEX®** preserves the integrity of delicate bioactive compounds without the use of heat or chemical solvents. This process results in higher purity, enhanced stability, and improved bioavailability of essential nutrients, including Omega 7 (palmitoleic acid), tocopherols (vitamin E), carotenoids, and plant sterols.

The result is a full-spectrum omega system with a clinically oriented approach that supports cellular health, mucosal integrity, skin hydration, and overall physiological balance—positioning **OMEGAPEX®** as one of the most advanced plant-based omega solutions available today.

## Valuable Healing Berry

SeaBuckthorn is sustainable, plant based source for omega 3,6,9 as well as the rare omega-7. SeaBuckthorn is also an antioxidant powerhouse with many vitamins and minerals

The unique nutritional profile of SeaBuckthorn offers over 190 phytonutrients and supercharged antioxidants.

## What is SeaBerry?

## What is Omega 7?

- Strong antioxidant – cellular rejuvenation
- Anti-Inflammation
- Improves cardiovascular health – cholesterol control
- Improves brain and nervous system function\*
- Improve digestive function – support mucosal membrane repair
- Support metabolic syndrome – weight and blood glucose management

# OMEGAPEX®

## MAY IMPROVE DRY SKIN, LOOSE SKIN AND WRINKLE\*

**Sea Buckthorn**, long revered for its rare **Omega 7** content, offers a refined approach to skin hydration—working beyond the surface to nourish the skin from within. This unique fatty acid, combined with a full spectrum of **Omegas 3, 6, and 9**, helps support the skin’s natural barrier, enhancing moisture retention while restoring softness, suppleness, and radiance.

Infused with a potent matrix of antioxidants, including vitamin E and carotenoids, **Sea Buckthorn** helps defend against environmental stressors that contribute to dryness and premature aging. The result is skin that appears more luminous, deeply hydrated, and visibly revitalized—revealing a smoother, healthier complexion that reflects true beauty from within.

### Design:

Randomized trial was conducted in 60 women of 50–70 years old

### Result:

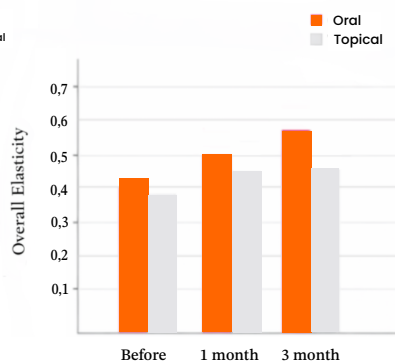

Significant improvement in skin parameters:

- *Skin hydration* was increased by **49%**
- *Skin elasticity* was increased by **26%**
- *Wrinkle* was reduced by **9%**

### SKIN HYDRATION

### SKIN ELASTICITY

### WRINKLE REDUCTION
